KOSHER CERTIFICATE TO FRIGOKEN LIMITED

This is to certify that I, Rabbi Netanel Kaszovitz, have inspected Frigoken Limited at their factory in Baba Dogo Road, Nairobi, Kenya on May 30th, 2022 and have found their **Frozen Avocado Halves, Chunks and Slices** products to be Parve Kosher products.

In my inspection of the factory today, I found that from the time of arrival of the fresh Avocados at the plant, there are no non-Kosher ingredients used in cleaning or freezing, or in the cleaning and maintenance of the factory's equipment.

In the process, the Avocados are washed with chlorine-water and disinfected with a solution made up of hydrogen peroxide and paracetic acid, followed by natural ripening, then disinfected again with hydrogen peroxide and paracetic acid solution, cut, destoned, deskinning and diced. The next stage is an antioxidation treatment with salt, ascorbic acid and citric acid solution. They are then drained and frozen by IQF (individual quick freezing), and then packed. No additives are introduced at any time during the process.

This Kosher Certificate is effective until June 30th, 2023 and is to be renewed annually.

RABBI NETANEL ARYEH LEIB KASZOVITZ

CHIEF RABBI OF KENYA
